### VISITOR

The Right Rev. George Craig Stewart, D.D., Bishop of Chicago

### OFFICERS

Charles H. Schweppe.....	President
A. Watson Armour.....	First Vice-President
John Stuart.....	Second Vice-President
Chauncey B. Borland.....	Secretary
Walter B. Smith.....	Assistant Secretary
Howard O. Edmonds.....	Treasurer
L. L. McArthur, Jr.....	Assistant Treasurer
Charles A. Wordell.....	Director
E. C. H. Pearson.....	Assistant Director

### BOARD OF TRUSTEES

Frank Hibbard	Cyrus H. Adams, Jr.
Charles H. Scheppe	A. Watson Armour
Walter B. Smith	Rev. Duncan H. Browne
Mrs. John W. Gary	Howard O. Edmonds
Albert H. Wetten	David Evans
Sterling Morton	C. Ward Seabury
Britton I. Budd	Mrs. Walter B. Wolf
Chauncey B. Borland	
Samuel Insull	
Joseph T. Ryerson	
John Stuart	
Charles F. Glore	
Samuel Insull, Jr.	

### THE NURSING COUNCIL COMMITTEE

Dean Duncan H. Browne,  
Chairman

Dr. H. O. Jones.....	Medical Board, St. Luke's Hospital
Mrs. John W. Gary.....	President, Women's Board, St. Luke's Hospital
Mrs. Chauncey B. Borland.....	Women's Board, St. Luke's Hospital
Mrs. Charles H. Morse.....	Women's Board, St. Luke's Hospital
Mrs. Gordon Lang.....	Women's Board, St. Luke's Hospital
Mrs. George A. Ranney.....	Women's Board, St. Luke's Hospital
Miss Edna L. Foley.....	Superintendent, Visiting Nurse Association of Chicago
Miss Edna Lowe.....	St. Luke's Hospital School of Nursing, 1918
Charles A. Wordell.....	Director, St. Luke's Hospital
Janet Fenimore Korngold.....	Director, School of Nursing

### SCHOOL CHAPLAIN

Rev. William Turton Travis,  
Rector, Grace Church; Chaplain, St. Luke's Hospital

# ST. LUKE'S HOSPITAL SCHOOL OF NURSING

## Faculty and Supervisory Staff

### DIRECTOR, SCHOOL OF NURSING

**Mrs. Janet Fenimore Korngold, R.N., A.B., M.A.**

A.B., Earlham College, Richmond, Indiana, 1910  
Diploma, Presbyterian Hospital School of Nursing, Chicago, 1924  
M.A., Northwestern University, 1929

### ASSISTANT DIRECTOR, SCHOOL OF NURSING

**Josephine Gilbert, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1924  
Teachers' College, Columbia University, 1929-1930

### ASSISTANT DIRECTOR, SCHOOL OF NURSING

**Elsa Rudolph, R. N.**

Diploma, St. Luke's Hospital School of Nursing, 1918  
Teachers' College, Columbia University, 1930-1931

### ASSISTANT DIRECTOR AND NIGHT SUPERVISOR

**Maude Gooch, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1906

### ASSISTANT DIRECTOR AND NIGHT SUPERVISOR

**Lulu Dilge, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1913  
University of Chicago, Summer Session, 1932

### ASSISTANT DIRECTOR AND SUPERVISOR OF INSTRUCTION

**Alma Hakansson, R.N., C.M.B., B.S.**

Diploma, Florence Nightingale School of Nursing,  
St. Thomas' Hospital, London, 1921  
C.M.B., St. Thomas' Hospital, London, 1922  
Post-Graduate Course, Venereal Disease, Whitehall, London, 1924  
B.S., Columbia University, 1935

### INSTRUCTOR IN SCIENCE

**Priscilla Parker, R.N., B.S.**

Diploma, Battle Creek College School of Nursing  
Battle Creek, Michigan, 1924  
B.S., University of Chicago, 1934

### INSTRUCTOR IN NURSING PROCEDURE

**Mrs. Mary Benton, R.N.**

Teacher's Certificate, State Teachers Normal School,  
Altoona, Pennsylvania, 1918  
Diploma, Jefferson Medical College School of Nursing  
Philadelphia, Pennsylvania, 1923

### INSTRUCTOR IN NURSING PROCEDURE

**Olive Frost, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1928  
Teachers' College, Columbia University, 1933-1934

**INSTRUCTOR AND SUPERVISOR, MEDICAL NURSING**

**Rachel Congleton, R.N., A.B.**

A.B., Gooding College, Wesleyan, Idaho, 1928  
Diploma, Wesley Memorial Hospital, Chicago, 1931

**INSTRUCTOR AND SUPERVISOR, SURGICAL NURSING**

**Evelyn van de Steeg, R.N.**

Diploma, University of Iowa School of Nursing, 1915  
University of Iowa, Summer Session, 1922

**INSTRUCTOR AND SUPERVISOR, PEDIATRIC NURSING**

**Mayme Rogers, R.N., B.S.**

Diploma, Lakeside Hospital School of Nursing, Cleveland, O., 1920  
B.S., Teachers' College, Columbia University, 1931

**INSTRUCTOR AND SUPERVISOR, MATERNITY NURSING**

**Anne Keener, R.N.**

Diploma, Johns Hopkins Hospital School of Nursing, 1926  
Post-Graduate Course, Chicago Lying-In Hospital, 1927  
Teachers' College, Columbia University, 1933-1934

**INSTRUCTOR IN SURGICAL TECHNIQUE AND SUPERVISOR,  
OPERATING ROOMS**

**Marie Ante, R.N.**

Diploma, St. Mary's School of Nursing, Rochester, Minnesota, 1913

**INSTRUCTOR AND SUPERVISOR, OUT-PATIENT DEPARTMENT**

**Irene Stolf, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1921

**DIRECTOR OF SOCIAL ACTIVITIES**

**Mable Shannon, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1910

**SUPERVISOR, SMITH MEMORIAL BUILDING**

**Ruth Sackett, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1921

**ASSISTANT SUPERVISORS, OPERATING ROOMS**

**Alice Bell, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1929

**Kathryn Larrance, R.N.**

Diploma, Lakeview Hospital, Danville, Illinois, 1929  
Post-Graduate Course, Surgical Technique, Cleveland Clinic,  
Cleveland, Ohio, 1932  
Post-Graduate Course, Operating Technique and Management,  
New York Polyclinic, 1934-1935

**Viola Hanes, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1929

**HEAD NURSE, CHILDREN'S WARD**

**Agatha Pape, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1934

#### **HEAD NURSES, MATERNITY WARD**

**Rhoda Frid, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1930  
Post-Graduate Course, Sloan Maternity Hospital, 1932

**Kathryn Beuchat, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1930

#### **HEAD NURSES, OPERATING ROOMS**

**Eloise Buchholz, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1933

**Sadie Rock, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1932

**Pearl Wittmack, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1930

**Dorothy Ross, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1933

#### **HEAD NURSES, MEDICAL AND SURGICAL SERVICES**

**Berneice Boies, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1927

**Lucille Eschenbach, R.N.**

Carroll College, Waukesha, Wisconsin, 1921-1923  
Diploma, St. Luke's Hospital School of Nursing, 1926  
Post-Graduate Course, Visiting Nurse Association, Chicago, 1930  
University of Wisconsin, Summer Session, 1932

**Mrs. Helen Beck Fiske, R.N.**

Monticello Seminary, Godfrey, Illinois, 1921-1922  
Diploma, St. Luke's Hospital School of Nursing, 1926

**Elsie Havens, R.N.**

Teacher's Certificate, Northern Illinois State Teacher's College, 1923  
University of Buffalo, Buffalo, New York, 1931-1932  
Diploma, St. Luke's Hospital School of Nursing, 1936

**Marguerite Kilgas, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1932

**Evelyn Lillge, R.N.**

Lawrence College, Appleton, Wisconsin, 1930-1931  
Diploma, St. Luke's Hospital School of Nursing, 1935

**Eliza Marske, R.N.**

Diploma, Minneapolis General Hospital School of Nursing, 1918  
University of Chicago, Summer Session, 1931

**Margaret Wallick, R.N.**

Mt. Morris College, Mt. Morris, Illinois, 1927-1928  
Diploma, St. Luke's Hospital School of Nursing, 1935

**Rosemary Wham, R.N.**

Diploma, St. Luke's Hospital School of Nursing, 1934

## ST. LUKE'S HOSPITAL

On the eighteenth of February, 1864, under the leadership of Dr. Clinton Locke, Rector of Grace Church, occurred the founding of St. Luke's Hospital and later that year the Hospital became incorporated. The history of the growth of the Hospital from that time to the present well represents the interests and efforts made by the Board of Trustees and friends of the Hospital.

A small frame house on State Street near Eldridge Court accommodating seven patients was the nucleus; later that year a nearby brick house was rented and facilities were provided for eighteen patients. In 1871 the Hospital moved to Indiana Avenue and occupied a part of the present site. A few years later steps were taken to erect a well designed hospital and by 1891 the capacity became one hundred and fifty-two beds. An urgent need for a private patient pavilion developed and in 1908 the "George Smith Memorial" was erected on Michigan Avenue with accommodations for one hundred and ten patients.

A twenty-one story building on Indiana Avenue was completed in 1925 and provides for five hundred and forty patients. A portion of the older building still stands on Indiana Avenue but the new building occupies the greater frontage. In this building the entire second floor is allotted to education and social activities of the School of Nursing and consists of classrooms, laboratory, assembly room and a very attractively furnished reception room. The three floors above are used as living quarters for the student nurses and are so arranged as to insure privacy. "Stickney House," the present residence for nurses, was erected in 1898 and provides comfortable surroundings for the students.

St. Luke's Hospital is one of the large general hospitals of Chicago which renders to the public the double service of a private institution where most efficient and luxurious hospital, medical and nursing attention may be enjoyed and at the same time expert care given free of charge to those unable to pay.

In 1935 free service was rendered to hospitalized patients to the amount of seven and one-half per cent, at a cost to the institution of \$56,307.77. In the Social Service and Out Patient Department of the Hospital, 62,466 patients were given free care and treatment.

The bed capacity of the Hospital including the private pavilion is six hundred and fifty-nine beds.

St. Luke's is literally at the gateway to Chicago's Loop district. Hence being the nearest large hospital it is looked to as an emergency center for the multiplicity of emergency and accident cases that daily arise where there is a high concentration of population.

Nurses' Reception Room, Main Building

## EDUCATIONAL FACILITIES

The School of Nursing of St. Luke's Hospital, organized in 1885, is an integral part of the Hospital and governed by the same Board of Trustees. Six nurses graduated in the first class and with that beginning the enrollment gradually increased until at the present time there are approximately forty students graduating each year. Over twelve hundred nurses have received diplomas from this School, many of whom have filled or are now occupying responsible positions in all parts of the country.

The founders of the School felt that a high grade of nursing service could be secured for the patients of St. Luke's Hospital by organizing a school where young women seriously interested in humanitarian service could be trained not only for hospital work but for nursing in the community as well. Thus the purpose has been to provide thorough instruction and experience in the care of the sick and also instruction in the principles of health and hygiene to better serve the community in the varied field of Public Health Nursing.

St. Luke's Hospital offers unusual opportunities for instruction and experience in nursing. It is one of the largest general hospitals for the reception and treatment of acute diseases in Chicago. Practically every type of patient enters the hospital and the student has the privilege of studying and nursing these patients when she is having her hospital assignments in the medical, surgical, obstetrical and children's departments of the hospital. Opportunity for instruction and experience is also given in the eye, ear, nose and throat department, operating rooms, diet kitchen, out-patient and social service department and in the private pavilion of the hospital. The hospital is so designed and equipped to afford the most modern scientific, medical and nursing service to the patients.

A library containing reference books, charts, pamphlets and nursing journals has been established in connection with class rooms on the second floor of the Main Building. A very complete Medical Library is located on the eighteenth floor of the Main Building and frequently used for reference reading by the faculty and students of the School of Nursing.

The faculty of the School of Nursing consists of administrators, instructors, supervisors and head nurses who are well qualified in the responsibilities they have assumed. Dietitians and Social Service workers instruct and direct the nurses in those departments. The lectures in the clinical subjects are given by members of the Medical Board of St. Luke's Hospital who are associated with the medical schools of Northwestern University, University of Chicago and University of Illinois.

## CURRICULUM

### I. Professional Development

75 Hours

- (a) Hospital Department.  
Lectures having for their object the familiarizing of the student with a new and peculiar environment.  
(15 hours, Preliminary Period) Mrs. Korngold
- (b) Psychology  
Limited to the psychology of the studying and learning processes, and their application to phases of professional work and conduct. An "orientation course" presented with a view to improving study and work habits.  
(30 hours, Preliminary Period) Mrs. Korngold
- (c) History of Nursing  
Lectures dealing with the historical background of the nursing profession and with the development of modern nursing principles and technique. Hospital regulations and standards of behavior are explained in the light of their historical background.  
(15 hours, Preliminary Period) Miss Hakansson
- (d) Personal Hygiene  
Emphasizing the importance of good health as a foundation for personal happiness and professional success. Stressing the obligation of the nurse as a teacher of Hygiene.  
(15 hours, Preliminary Period) Miss Shannon

### 2. Principles and Practice of Nursing

300 Hours

- (a) This subject constitutes the basic course of any nursing curriculum. All nursing procedures outlined in the **Nursing Technique of St. Luke's Hospital** are demonstrated in the class room by the instructor, and repeated by each student before the instructor, prior to the execution on the wards of the hospital. Each student compiles a complete file for future reference of all procedures listed in the **Nursing Technique of St. Luke's Hospital**. **Harmer: Principles of Nursing**, is used as a text.  
(120 hours, Preliminary Period) Mrs. Benton, Miss Frost
- (b) Supervised Ward Practice  
The laboratory course conducted on the wards, concurrently with Course 2a.  
(180 hours, Preliminary Period) Mrs. Benton, Miss Frost

### **3. Anatomy and Physiology**

**90 Hours**

The object of this course is to give the student a practical knowledge of the morphology and function of the human body, as a basis for the study of materia medica, dietetics, and pathological conditions, as well as to provide a basis for intelligent bed-side nursing. **Kimber and Gray** is used as a text.

(90 hours, Preliminary Period) Miss Parker

### **4. Bacteriology**

**70 Hours**

It is our intention to stress the relation between this subject and the practical work of the nurse, rather than to emphasize its laboratory aspects. An historical introduction is given, explaining the advent of asepsis in surgical and nursing technique. Demonstrations are given in the creation of a sterile field, the setting up of infectious precautions, the processes of sterilization, disinfection, etc. Special emphasis is placed on the pathogenic bacteria and methods of control. A foundation is laid for the study of infectious and contagious diseases, and the fundamental principles of sanitation are presented.

(70 hours, Preliminary Period) Miss Parker

### **5. Chemistry**

**45 Hours**

The course is not a replica of the course in general chemistry offered in the standard high school curriculum. The material presented is selected with a view to clarifying and expanding the courses in Dietetics, Materia Medica, Physiology and such other subjects as suggest a close correlation with chemical theory. The reactions that occur in digestion, drug administration, disinfection, and in other procedures of practical importance to the nurse are stressed. Gastric and urinary analyses are explained.

(45 hours, Preliminary Period) Miss Hakansson

### **6. Materia Medica**

**60 Hours**

#### **(a) Drugs and Solutions**

The object of this course is to familiarize the student with the solutions commonly used on the wards for cleaning, disinfecting and sterilizing; to teach common symbols, terms, computation of common doses, and strength of solutions; to teach the care of drugs, and the methods of administration.

(30 hours, Preliminary Period) Miss Parker

- (b) **Materia Medica**  
 This course considers the therapeutic uses of drugs, emphasizing the necessity for accurate observation and charting of effects. Observation of medical cases on the wards.  
**Blumgarten: Materia Medica** is the text.  
 (30 hours, Preliminary Period) Miss Parker

## 7. Dietetics 60 Hours

- (a) **Normal Nutrition**  
 Lectures and laboratory work on the preparation of balanced diets for normal adults, children and infants.  
 (30 hours, First Year) Miss Hagel
- (b) **Diet in Disease**  
 A study of therapeutic diets with special emphasis on the weighed diet, the diabetic and nephritic regimes, etc.  
 (30 hours, First Year) Miss Hagel

## 8. Medical Diseases 30 Hours

- (a) Lectures by members of the Medical Board:  
       Dr. Ball                                Dr. Coleman                Dr. Scupham  
       Dr. C. F. G. Brown        Dr. Carl Rinder        Dr. Wakefield
- (b) Demonstrations of nursing procedures and ward observation.  
 (30 hours, First Year) Miss Congleton

## 9. Surgical Diseases 75 Hours

- (a) Lectures by members of the Medical Board:  
       Dr. Hansen, General Surgery  
       Dr. Cavanaugh, Ear, Nose and Throat  
       Dr. Walker, Ophthalmology  
       Dr. Morrow, Dr. Lindman, First Aid  
       Dr. Chandler, Orthopedics  
       Dr. Ritter, Orthopedics
- (b) Demonstrations in surgical nursing technique and the employment of surgical appliances.  
 (75 hours, First Year) Miss Van de Steeg, Miss Stolp

## 10. Case Study 10 Hours

After the completion of the Preliminary Period the student is expected to present an average of one case study each eight weeks during the remainder of her training save while

on certain special services where it is impracticable. She develops the case from the observation of a patient in her actual care, using the studies presented by **Jensen** in her **Student's Hand-Book on Case Studies** as models. This work is closely correlated with Courses 8 and 9, and is introduced in 10 class periods by Miss Congleton.

**11. Obstetrical Nursing 30 Hours**

Treatment of normal and abnormal pregnancy and parturition; the management of normal and abnormal labor; postpartum care.

(30 hours, Second Year)

Dr. Eugene Cary, Dr. Fitzgerald, Dr. H. K. Gibson, Dr. Gough, Miss Keener.

**12. Pediatrics 40 Hours**

The physical and mental development of the normal child; diseases of childhood; the abnormal child; principles of feeding in health and disease; the adaptation of general nursing principles to the care of children.

(40 hours, Second Year)

Dr. S. Gibson, Dr. Henn, Miss Rogers

**13. Gynecology 15 Hours**

Lectures covering a review of the anatomy and physiology of the female pelvic organs; the diseases of these organs: causes, symptoms and treatment. Post-operative care is stressed.

(15 hours, Second Year)

Dr. E. Edwards, Miss Van de Steeg

**14. Operating Room Technique 15 Hours**

- (a) Instruction in the conduct of an operating room: personnel, equipment, procedure. Maintaining a sterile field; demonstrations in "scrub-up," care of instruments, preparation of patient, etc.

(12 hours, Second Year) Miss Ante

- (b) Anaesthesia

A brief explanation of the types of anaesthesia, stressing the danger points in the anaesthetic state, and the care of patients immediately before and after the administration of anaesthesia.

(3 hours, Second Year) Miss Tyler

**15. Diseases of the Nervous System** **20 Hours**

Lectures on the care of nervous and mental diseases, and on mental hygiene.

(20 hours, Second Year) Dr. Mackay, Dr. McMillan, Dr. Solomon

**16. Urology and Venereal Diseases** **10 Hours**

A course of lectures by Dr. L. L. Veseen

(10 hours, Second Year)

**17. Dermatology** **5 Hours**

Lantern slides, description and treatment of the more common skin affections.

(5 hours, Second Year) Dr. Oliver, Dr. E. M. Smith

**18. Occupational Therapy** **4 Hours**

This course seeks to give the nurse an appreciation of the therapeutic value of creative work combining manual and mental effort on the part of the patient, in the management of certain diseases. Observation in the work-shop and at the bed-side.

(4 hours, Second Year) Dr. Coulter, Mrs. Abbey

**19. Physical Therapy** **16 Hours**

Especially emphasizing the physiological effects and therapeutic value of massage. Demonstration and practice in fundamental manipulations.

(16 hours, Second Year) Dr. Coulter, Miss Strunk

**20. Survey of the Nursing Field** **20 Hours**

Lectures and conferences relating to the various fields of nursing. Contemporary nursing problems. Visiting lecturers from outside nursing organizations.

(20 hours, Third Year) Mrs. Korngold

**21. Public Health and Social Problems** **10 Hours**

Introduction to various health and social agencies.

(10 hours, Third Year) Miss Hakansson

Nurses' Station, Main Building

## SUMMARY OF CLASS INSTRUCTION

FIRST YEAR	Actual Hours	Didactic Hours	Laboratory Hours	
Professional Development .....	75	75	----	
Including:				
Hospital Department - - - 15 hrs.

TOTAL				1020

## GENERAL PLAN OF PRACTICAL WORK

### 1. The Preliminary Period (5 months)

This covers the first five months following entrance. During this time the student adjusts herself to the hospital routine and completes the basic course in practical bed-side nursing and the theoretical courses most closely related thereto. During this period the student spends an average of two hours daily in practical work on general medical and surgical wards.

The importance of this period and this work is such that students failing to complete it in a satisfactory manner are dropped from the roll at the end of the period. It is not to be inferred from this, however, that failure to make passing grades or do satisfactory practical work will not eliminate the student at the close of later semesters.

### 2. Medical and Surgical Nursing (11 months)

During the course of the three years the student spends approximately eleven months in the actual nursing of medical and surgical cases. Students will have experience with both ward and private patients and in both day and night routine. The schedule provides approximately a 48 hour week for the student.

### 3. Obstetrical Nursing (14 weeks)

The student's time in this department is divided between care of mothers, care of new-born infants and service in the birth rooms. The student will assist at a minimum of twelve deliveries.

### 4. Pediatric Nursing (14 weeks)

The student will spend 14 weeks in the children's ward. She will have extensive experience with feeding problems and will serve a definite assignment in the formula laboratory.

### 5. Operating Room Service (14 weeks)

The student will spend 14 weeks in the Operating Rooms, her experience including assistance at both major and minor operations, in general surgery and in the specialties.

## **6. Diet Kitchen (2 months)**

Under the supervision of the chief dietitian and her assistants the student has experience in the preparation of therapeutic and special diets.

## **7. Special and Affiliated Services (10 weeks)**

To supplement the experience given at St. Luke's Hospital, affiliations in certain of the special fields of nursing have been provided:

Through the Visiting Nurse Association, arrangements have been made for the student to care for the patient in the home. Not only health problems, but social and economic problems of the family and community are presented to the student.

The Illinois School of Psychiatric Nursing gives the students who elect that experience, opportunity to care for the mentally ill at the Chicago State Hospital for the Insane.

Through the Department of Health of Chicago, it has been possible to arrange an affiliation with the Municipal Contagious Disease Hospital where the student receives instruction and experience in the care of communicable diseases.

The Out Patient Department of St. Luke's Hospital affords valuable observation of a multiplicity of conditions not seen in the hospital wards, as well as a view of the functioning of the Social Service Department.

The senior student elects one of these special or affiliated services to carry during the Third Year.

## **8. Ward Management (2 months)**

Under the direction of a supervisor, the student is permitted to assume the direction of a ward. Students with excellent records and adequate address may elect further head-nurse work rather than experience in the special or affiliated courses.

Thus the 36 months of training are distributed as follows:

Preliminary Period .....	5	months
Medical and Surgical Nursing.....	11	"
Obstetrical Nursing .....	3½	"
Pediatric Nursing .....	3½	"
Operating Room .....	3½	"
Diet Kitchen.....	2	"
Special Services and Affiliations.....	2½	"
Ward Management.....	2	"
Vacation .....	3	"
<hr/>		
Total.....	36	"

Little Ones in Their  
Private Dining Room

## REQUIREMENTS FOR ADMISSION

### Educational Requirements

Only graduates of accredited high schools, or those who have completed work equivalent to a four year high school course, are admitted to the St. Luke's School of Nursing. A blank will be supplied the applicant for the transcription of her high school record. In the selection of students preference is shown those whose scholarship, as evidenced by their high school record, has been of a high order.

A standard academic high school course is preferable, as a background for nursing education, to a commercial course, or a course in which vocational subjects occupy a prominent place. The preferable high school course to present as a basis for work in a school of nursing would be constituted as follows:

English—4 units

Foreign Language—2 to 4 units

Science—2 to 4 units

Mathematics—1½ to 3 units

Social Sciences (History, Civics, Government)—2 to 4 units

Electives (Music, Art, Domestic Science)—A maximum of 4 units.

It would be better to study a specific science in high school than to take a year's work in "General Science." A unit in Chemistry, Botany, Physics or Physiology is preferable to this. Moreover, the student should know that while a commercial course may be valuable for commercial purposes, it will be of practically no assistance in the work here. The applicant should present sixteen high school units for entrance, and not more than four of them should be in the electives mentioned above, or in commercial subjects.

### Personal Qualifications

Admission is limited to applicants between 19 and 30 years of age, who can show testimonials of good character and seriousness of purpose. The School considers it inadvisable to admit or retain married women.

### Health

The applicant is required to present a report of physical examination made by her family physician, this report submitting that the applicant is without physical ailment or defect that would prove a handicap in nursing. Certification showing immunization against small-pox and typhoid fever within one year of entrance, is also required, as is a statement from the family dentist, testifying to the satisfactory condition of the teeth. Blanks are supplied the applicant for the presentation of these reports.

## **EXPENSES**

### **Registration and Entrance Fees**

St. Luke's Hospital School of Nursing assesses an entrance fee of one hundred dollars (\$100.00). Of this amount, ten dollars (\$10.00) is in the nature of a registration fee, payable at the time of acceptance, to guarantee a room reservation in the nurses' home. The remainder, ninety dollars (\$90.00) is due on the day of entrance.

### **Laboratory Fee**

A laboratory fee of \$10.00 is assessed each student; it is payable upon the day of entrance.

No part of either entrance or laboratory fee will be refunded if the student leaves for personal reasons or is dismissed. No portion of these fees is refunded if the student is not definitely retained in the school as a result of inferior class or ward work, or because of physical incapacity.

### **Other School Expenses**

The cost of text-books during the three years' course will be approximately thirty-five dollars (\$35.00). Approximately twenty dollars of this amount will be required during the first year.

A deposit of \$1.00 must be made for closet and room keys. This amount is refunded when the student leaves the school, upon the return of the keys. If the keys are lost, another deposit must be made to secure replacement.

### **Personal Expenses**

St. Luke's Hospital grants no monthly stipend or wage to students. Student nurses receive maintenance which includes room, board and laundry. They are supplied by the hospital with uniforms adequate to their needs. The student's personal expenses will depend upon her individual taste and financial means. There is no way student nurses may earn money while pursuing their studies, as their entire time is occupied in carrying out the school program. With careful planning most students are able to get along very well if they have one hundred and fifty dollars a year available for personal expenses.

Students who have been enrolled in the school two years and are in need of financial assistance may be granted small loans from a fund established for this purpose. The money is loaned with the understanding that it will be returned to the fund as soon as possible after graduation.

(Below) A Happy Hour in the Children's Playroom

## **STUDENT HEALTH PROGRAM**

The health program is conducted under the supervision of the Welfare Director who endeavors to teach the students principles of personal hygiene and their practical application in the promotion of health. Upon arrival each student is given a careful physical examination, including an x-ray of the chest.

Students are urged to report promptly any indisposition. When ill they are hospitalized and attended by members of the Medical Staff of St. Luke's Hospital.

Health examinations are given each year, and recommendations for the welfare of each student are carefully followed.

Time lost because of illness must be made up.

## **VACATION AND ABSENCE**

Students are allowed four weeks' vacation each year or twelve weeks during the three years. Vacations are usually planned during the months of June, July, August and September of each year. Students are not permitted an extension of vacation time and will be considered on leave of absence if they do not return on scheduled time. They will then be reinstated at the convenience of the School.

Students are not permitted to absent themselves for personal reasons, except in the case of the extreme illness of members of their immediate families. Students are not granted leaves of absence to nurse relatives.

## **RELIGIOUS INFLUENCE**

While St. Luke's Hospital was founded under the direction of leaders in the Episcopal Church, the question of creed never enters into its work, either as to patients or the selection of students in the school. Grace Episcopal Church is closely affiliated with St. Luke's Hospital and is located on Indiana Avenue, adjoining the Hospital. Daily chapel services are conducted for the nurses by the Chaplain. Students are encouraged to attend church services of their preference at least once on Sunday.

## **STUDENT ACTIVITIES**

The social activities of the School are largely under the direction of the Social Welfare Director. The Young Women's Christian Association of St. Luke's Hospital has a large and active membership and sponsors lectures, picnics and athletic activities. It is an Inter-Collegiate branch of the Young Woman's Christian Association of Chicago.

The Herman H. Hettler, Jr., Fund was established in 1930 to be used for the comfort and pleasure of the nurses. The income from this bequest of ten thousand dollars materially aids in working out a worthwhile extra-curricular program.

Through the Nursing School Committee of the Woman's Board, as well as through individual members, the social and home life of the student nurses has been made attractive and comfortable.

Each class has its own organization, officers and faculty advisor and throughout the year many special parties and teas are enjoyed. All recreational activities are planned in accordance with the desires and pleasures of the student group.

### **STANDARD OF CONDUCT**

The conduct expected of students is such as any self-respecting earnest woman will recognize as embodying only those requirements that are fair and necessary in an institution of this kind.

House regulations in printed form are presented to the student upon her arrival, and it is understood that her presence in the school indicates her perfect willingness to cooperate with the school administration in maintaining these regulations.

### **SCHOLASTIC STANDARDS**

Attendance upon all scheduled classes is obligatory. Only illness is accepted as an excuse for absence. Written examinations are given at the conclusion of all courses, upon which a grade of 75% is required for credit. All courses must be completed satisfactorily before the student will be presented to the State Department of Registration as eligible for state examination and registration.

Never, during the Preliminary Period, and seldom in upper classes, has it been permitted students to retake courses in which they have failed. Only those courses left incomplete as a result of absence due to illness, are felt to warrant permission for repetition. Students are expected to maintain a passing average in school work in order to maintain their standing in the school.

### **GRADUATION AND AFTER**

The diploma and pin of the school are granted to students who have successfully completed the required course in nursing. Commencement exercises are held at the close of the school year. The hospital and school continue to be interested in the nurse after graduation and endeavor to give her assistance in securing desirable positions in the phase of nursing she is best qualified to enter.

In order to practice as a Registered Nurse, graduates are required to pass the examination given by the Department of Registration and Education of the State of Illinois. This entitles the nurse to registration by reciprocity or examination in other states.

All graduates of the School who are in good standing and are registered nurses are eligible to membership in the St. Luke's Hospital Alumnae Association. This Association was organized in 1897 and is most helpful in maintaining high professional standards among the graduates of the School. Membership in the Alumnae Association admits the graduate to the district, state and national nursing organizations. She is also eligible for membership in the American Red Cross Nursing Service and the Army and Navy Nurse Corps.

### **APPLICATION FOR ENTRANCE**

Application must be made by letter, in the applicant's handwriting. A personal interview in addition is very desirable, however, and is expected of all applicants living within a distance making it reasonable to request it. Students appearing for an interview will receive their physical examinations at the same time.

Applicants unable to arrange for an interview must submit photographs with their applications.

Classes are admitted twice yearly, in September and in February. Students cannot enter at any other time.

For application blanks and further information, address

**The School Director  
St. Luke's Hospital  
Chicago, Ill.**
